KJ SOMAIYA INSTITUTE OF TECHNOLOGY   **Sion, Mumbai**
Student Intern (Jan 2024 – April 2024)
Developed a Media Management System for College Committees, empowering committee members to seamlessly upload images and videos. Integrated an approval system facilitated by admin faculty coordinators to ensure the quality and appropriateness of media content.
Utilized PHP. Bootstrap and SQL to architect and implement the system, ensuring efficient data management.

PROJECTS

FOLDER AND MEDIA MANAGEMENT SYSTEM
- Developed a folder management system using PHP, MySQL, JavaScript, and Bootstrap, enabling Committees/Clubs to add/delete images and videos within folders and subfolders.
- Implemented an approval workflow allowing Admins to approve or reject uploads, with notifications for rejections and alerts for new folders and restoration requests.
- Enabled End Users to view and download admin-approved items, with download capabilities extended to all user roles.

TASKWAVE
- Developed a to-do application using the MERN stack.
- Implemented CRUD operations for task management, ensuring a seamless user experience with real-time updates.
- Designed a responsive UI with React, and used Express.js and Node.js for efficient backend functionality

PORTFOLIO
- Developed a responsive portfolio website using React to showcase personal projects and skills. Implemented interactive project galleries, smooth navigation, and a contact form with email functionality and deployed on vercel
